
Common mode; black: CISPR 25 class 3, grey: class 5 (voltage method, peak)
dBµV at the AN (peak)
rated point, board as frozen
rated point, with the off-board input filter
locked rotor, board as frozen
locked rotor, with the off-board input filter
Differential mode; black: CISPR 25 class 3, grey: class 5 (voltage method, peak)
dBµV at the AN (peak)
rated point, board as frozen
rated point, with the off-board input filter
locked rotor, board as frozen
locked rotor, with the off-board input filter
Frequency [MHz]
